## **R1 VHF Test Battery Pack 84-102**

Distributor: Orolia Ltd  
Silver Point, Airport Service Road, Portsmouth, UK  
PO3 5PB

Contact: +44 (0) 23 92623900

Description: the product is a battery pack for a marine Portable Survival Craft Two-way VHF Radiotelephone Apparatus. It contains seven small primary Alkaline Manganese Dioxide cells, and is by design a sealed waterproof unit that poses no definable health hazard.

### **Use Information**

The product has a limited service life: see label for expiry date.

The product contains no user-serviceable parts.

DO NOT ATTEMPT TO DISMANTLE.

DO NOT ATTEMPT TO RECHARGE THE BATTERIES.

### **Hazardous Substances**

Under EC and US legislation this product is classified as a manufactured article, which does not result in exposure to any hazardous chemicals under normal conditions of use. As such the product does not require a Material Safety Data Sheet, and the following information is provided as a courtesy:

The cells within the product contain the following active ingredients, by CAS number and name:

1313-13-9	Manganese Dioxide
7440-66-6	Zinc
1310-58-3	Potassium Hydroxide
7782-42-5	Graphite
7440-44-0	Graphite

No chemical hazard will be posed as long as the cells remain in their sealed condition.

This information is given in good faith, and is believed to be accurate at the date of preparation. Orolia Ltd makes no warranty, either express or implied, with respect to this information, and disclaims all liability from reference on it.

---

## Transport Information

The product is unregulated for the purposes of transportation.  
For transportation by air, IATA special provision A123 applies.

## Disposal Information

DO NOT INCINERATE.

DO NOT ATTEMPT TO DISMANTLE.

DO NOT DISCARD IN DOMESTIC WASTE.

This product should be disposed of in a sensible and considerate manner, and in accordance with local regulations. Take it to a civil recycling facility, or contact Orolia for advice.

## Green Passport: Ship Recycling Information

Orolia Ltd hereby declares potentially hazardous content in some of its electronic products.

Small amounts of the following substances may be present: beryllium oxide, lithium, lead (in older products), brominated flame retardants, glass.

In keeping with European directive 2002/96/EC (Waste Electronic and Electrical Equipment) and the provisions of IMO Resolution A.962(23) (Guidelines On Ship Recycling), Orolia strongly recommends that its products, including any battery packs, be disposed of in a considerate and legal manner. Additional information, concerning the disposal of equipment can also be found in the relevant equipment User Manual, under the heading: End of Life Statement.
