

SmartFind R8F UHF Fire Fighter Radio

McMurdo's first marine approved
two-way radio made specifically
for firefighting communications

SOLAS Chapter II-2, Regulation 10.10.4 *the mandate designed to improve fire safety at sea*

In November 2012, the IMO's (International Maritime Organization's) Maritime Safety Committee set out a number of measures designed to improve fire safety at sea, including the mandatory provision of specific types of handheld two-way radios for firefighting operations.

This mandate means ships must carry firefighting radios that are explosion-proof or intrinsically safe.

Vessels constructed on or after 1st July 2014 must already carry these radios, but for ships constructed before 2014, compliance becomes mandatory on 1st July 2018 ...

*... up to 65,000 additional vessels must
carry two-way firefighting radios by July 2018.*

Meets the
NEW SOLAS
mandate

SmartFind R8F UHF Fire Fighter Radio

The rugged McMurdo SmartFind R8F UHF Fire Fighter Radio is an intrinsically safe two-way radio that meets new SOLAS II-2 mandated regulations for improved fire safety at sea.

It has everything an emergency team needs in a radio, from enhanced grip and large tactile buttons for easy and fast operation in an emergency situation, to a powerful in-built loud speaker and Ultra High Frequency (UHF) for optimised indoor use. Bright red and for emergency use only, SmartFind R8F is a reliable and hardwearing radio that will support firefighters at sea during potentially life-threatening situations.

The R8F is made with the Wheelmark standard in mind, we are confident we can meet increased quality requirements, offering a future proof solution with technology you can trust.

It is imperative that emergency teams can rely on the very best equipment and this is exactly what they'll get with the McMurdo SmartFind R8F.

A fire won't wait, you shouldn't either. Ensure the safety of your crew and vessel with McMurdo, the Most Trusted Name in Emergency Readiness and Response.

Rugged, Function-Rich Communication

Meets **SOLAS Chapter II-2**, Regulation 10.10.4.

CTCSS for secure connection

Large Screen, Button and Grips

Built-in loud **speaker** & **Audio** feedback

Compatible with accessories from **SAVOX** and **Peltor**

Heavy-duty rigged **IP67** portable radio

ATEX IIB explosive protection

UHF UHF frequency

Ease of identification via **Red** colour

SmartFind Packages

Compatible with accessory SAVOX and Peltor fire fighter radio equipment (headsets, helmets etc.)
the SmartFind R8F is available in three packages

SmartFind R8F UHF Fire Fighter Radio

SmartFind R8F UHF
Fire Fighter Radio

Transceiver
